

ESG Management for the Enterprise

Building an ESG program with Archer

Empowering Sustainability, Simplifying Compliance

As businesses move towards attaining sustainable growth, there is an increasing demand for social and environmental responsibility. Meeting these standards can go a long way towards managing risks, improving corporate reputation, and ultimately promoting long-term stability. Environmental, Social, and Governance (ESG) compliance is key to achieving these goals.

Building an effective ESG program is not without its challenges. The wide spectrum of data organizations must gather, analyze, and disclose is growing exponentially. There are a myriad of regulations and ESG frameworks being introduced that vary by region, country, and continent.

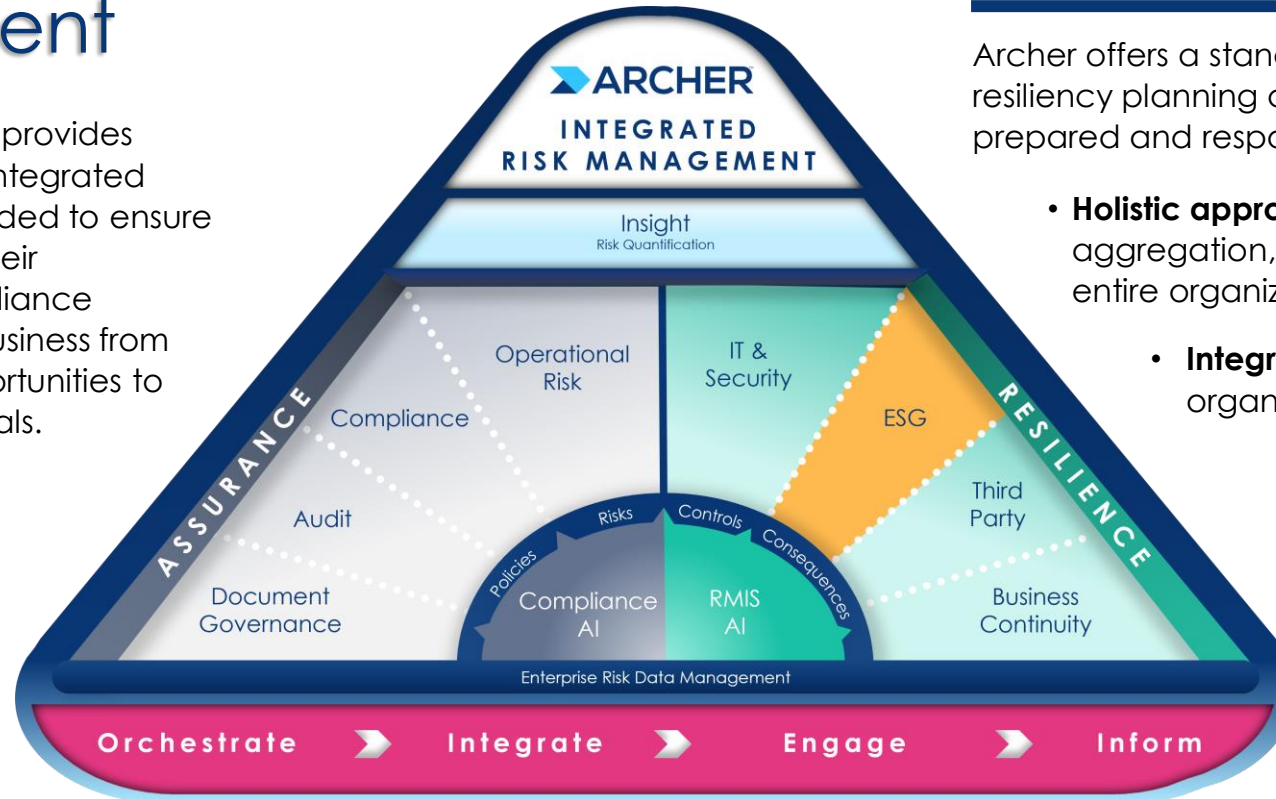

How does ESG Management help your organization?

- **Automate Data Collection:** Eliminate manual processes to ensure accurate and reliable ESG data
- **Reporting:** Reporting and dashboards aligned to industry frameworks support disclosure requirements
- **Materiality:** Quickly assess, calculate, and report on double materiality impacts with pre-configured assessments based on the E.U. ESRS framework
- **Integrated with Enterprise Risk Platform:** Centralize ESG data and leverage broader risk management capabilities in the Archer IRM platform

Purpose Built for ESG Management

Archer ESG Management provides business leaders with the integrated technology and tools needed to ensure organizations can meet their ESG regulatory and compliance obligations, protect the business from ESG risks, and exploit opportunities to achieve their strategic goals.

What is the highest priority? **This is why a platform designed for you, built on experience in ESG management, is so important.**

ORCHESTRATE YOUR ESG MANAGEMENT PROGRAM

Archer ESG Management empowers businesses to take **control of their ESG** data by providing a **comprehensive** and **integrated solution**.

INTEGRATE YOUR INFRASTRUCTURE

Our technology allows you to **connect to operational** systems to **leverage data** from other tools, creating a consolidated view of the ESG data relevant to your **ESG goals** and reporting obligations.

ENGAGE YOUR BUSINESS

Archer's ESG Management enables organizations to collect and **centralize ESG data** into a single platform, evaluate the **impact of risks on strategy**, set ESG goals, and produce **auditable reporting**.

INFORM STAKEHOLDERS

Real-time **ESG dashboards** and reports help meet the immediate and future needs of data gathering and disclosures and **provide insight** and **decision-useful information** to your senior management team.

How does Archer help you?

Archer offers a standards-driven, automated approach to resiliency planning and recovery, allowing your organization to be prepared and respond swiftly to disruptions.

- **Holistic approach** to managing the ESG data collection, aggregation, analysis, and reporting needs for the entire organization
- **Integration with the ERM suite** to ensure the organization mitigates both ESG and risk
- **Future-proof platform** supports integration to today's ESG solutions and expansion to tomorrow's ESG technologies

Drive efficiency for everyone involved with streamlined workflows and processes.

Build an Agile ESG Management Program

Experience matters when it comes to managing risk.
